

GLOBAL CYBERPEACE CHALLENGE

List Of Finalists

ABOUT GLOBAL CYBERPEACE CHALLENGE

Global CyberPeace Challenge (GCC) is a journey to recognize and award talent that can build solutions to some of the most pressing cybersecurity problems faced by the society today. The objective of the challenge is to tap into the innovative approaches adopted by participants to solve critical real-world problems in the technical and policy challenges.

The first two edition of GCC have been tremendous success garnering more than 3000 participation from almost 70 countries (combined numbers).

Global CyberPeace Challenge 3 will be organised on the same lines as of GCC 2 with three challenges: Cyber Policy & Strategy Challenge, Peace-a-Thon: The innovation challenge and Capture the Flag (CTF).
